

Short List of Alternative Haul Routes

We reviewed the long list of alternative haul routes and screened them to eliminate routes with significant disadvantages or impacts.

Screening criteria for screening the long list of alternative haul routes to achieve a short list of alternative haul routes were:

- Avoid settlements/built-up areas
- Avoid schools and parks
- Avoid roads with significant engineering and safety deficiencies
- Avoid significant impacts on the natural environment
- Avoid extensions or new road construction to minimize environmental impacts

We would appreciate your feedback on the short list of alternative haul routes.

Note: The location of the site driveway has not been finalized and is subject to phasing and the results from hydrogeology.
