

Next Steps

The next steps for the Haul Route Study are summarized below.

We will review all comments and suggestions received from the public and stakeholders.

Based on the input we receive from the public, agencies, municipalities, and other stakeholders, we will:

- Revise the preliminary analysis of the impacts of the alternative haul routes
- Revise the preliminary evaluation (qualitative and quantitative) that compares the alternative haul routes
- Recommend a preferred haul route and associated road improvements and mitigating measures
- Continue to work closely with CART and other agency stakeholders
- Continue to consider and incorporate public comments

Changes to the above will be posted on the Study website.

The report will be finalized considering the comments received on the draft report.

Your Input is Important

Do you have any questions, concerns, or comments?

We invite you to fill in the comment sheets or email us with your comments and suggestions.

Comments are always welcome.

If you wish to be put on our mailing list, require further information, or wish to provide input to the study, you can contact us in the following ways:
